Topex Bath Vanities Merge Minimalist Style With Maximum Storage

Armadi® Art Aqua Collection uses GLASS, LEATHER, WOOD, COLOURS, plus artful graphics and geometry to fuse contemporary style with practicality

Radius Series in White

(Elmwood Park, NJ, December 11, 2012) The new Armadi® Art Aqua Collection from internationally known decorative hardware manufacturer Topex Hardware, exemplifies minimalism and refinement. Customization is inherent in the collection's material options, which range from artistic graphics and fashionable faux leather, to high-quality, reflective glass. Storage solutions and practical features, such as waterproof surfaces, round out the collection's appeal as an elegant and sensible solution for a contemporary bath environment.

With six distinctive series, each featuring an element of the unexpected, the collection speaks to those who favor a minimalist design with European flair. The streamlined designs are generously proportioned and wall-mounted with straight or rounded edges. While the LEATHER, GLASS, and WOOD series are ultra-modern, PICTURESQUE uses nature graphics, including bamboo and autumn leaves, which present a tranquil, spa-like décor. The rounded dimensions of RADIUS give homeowners and decorators the opportunity to swap out angles for sleek curves, while COLOURS offers a selection of trend-right neutrals.

With more than 30 finish possibilities, from Metallic Gray Glass to exotic Bamboo Wood laminate, the six series within the Armadi Art Aqua Collection offers diverse selection.

GLASS: Emphasizing the dramatic contrast between rich color and chrome, the GLASS series is made from durable tempered glass. It comes in a range of vibrant hues including, Blue, Green, and Red. The assortment also encompasses a unique shade in Light and a classic Coffee and Black. At least four times stronger than standard glass, the GLASS series offers a highly reflective surface that brings dimension to the room.

LEATHER: Engineered to resist moisture, the LEATHER series brings a surprisingly unique and exotic texture to the bath. High quality leatherette, similar to that used by many automobile manufacturers, features a crocodile grain that comes in Light Crocodile and Dark Crocodile. Available with curvaceous, rounded corners (RADIUS) or streamlined, straight edges, the LEATHER series is scratch resistant, waterproof, and will not swell or warp over time.

PICTURESQUE: Creating an art gallery-style bath atmosphere, the PICTURESQUE series uses lifelike nature images and art displayed on the vanity to project visual intrigue. The vanity itself becomes the canvas, depicting exhibits, such as abstract design (Abstract), live bamboo (Bamboo), colorful autumn leaves (Leaf), and nature photography (Lake.) The vanity imagery captures the imagination, and, as with all art, leaves interpretation to the viewer.

Wood Series in Walnut

WOOD: Exuding the warmth of nature, the WOOD series is manufactured from wood-based material that is scratch and humidity resistant. Made of compact laminate over solid material, WOOD comes in seven variations, including Sunset, Oak, Teak, Bamboo, Cherry, Walnut, and Wenge. Sleek chrome handles provide a handsome contrast in materials to the smooth wood finish.

COLOURS: Reflecting a palette of neutral hues, the COLOURS series adds a sense of modern luxury to the bath. Available in White, Beige, Gray, Cappuccino, and Dark Grey, the series is finished with a glossy veneer. Featuring waterproof and nontoxic paints, each richly colored vanity offers plenty of storage options.

RADIUS: Subtle contours replace angular corners in the RADIUS series. With its trademark, rounded edges, it delivers a softer design than the other five series. RADIUS comes in striking green (Sanaga) and orange (Sotho), as well as the colors and finishes available in the GLASS, WOOD, LEATHER, and COLOURS series.

All surfaces within the Armadi Art Aqua Collection are scratch resistant, waterproof, and humidity resistant. And each vanity interior is lined with high-quality, water-resistant leatherette. Drawers feature ultra-silent Grass® soft-close drawer slides. Because the vanities are wall-mounted, they offer unique height flexibility. They can be hung at ideal comfort levels for adults and children, plus the wall-mounted design opens up additional area for storage, décor, or foot room.

Sold as a complete set with sink, countertop, matching mirror, and Bright Chrome or Satin Nickel decorative hardware, each model in the collection is available with one or two drawers. The vanities are offered in 24-, 28-, 36-, and 42-inch sizes. Coordinating storage cabinets, including upper and lower cabinets, and medicine cabinet mirrors for each finish, are sold separately. Prices start at \$2,700 for a single-drawer GLASS vanity in a 24-inch size.

Topex Armadi® Art Aqua Collection features ample storage and waterproof surface

About Topex Armadi® Art Aqua Collection

The Armadi® Art Aqua Collection expands Topex Hardware into the bathroom furniture category with European-manufactured, wood and aluminum-constructed vanities. A manufacturer of high-quality, decorative hardware and bath products, Topex has distribution centers throughout the world. Products are sold at prominent plumbing showrooms, through online retailers, and at select kitchen and bath dealers nationwide.
