FAIBA in Delmar Silver

FAIBA in White

FOR IMMEDIATE RELEASE

Vanities that Dazzle

INTRODUCING THE ARMADI ART AVANTGARDE FIABA SERIES

(Elmwood Park, NJ. November 13, 2015) Creating inspiring spaces has everything to do with combining practicality with an alluring touch of whimsy and pushing the boundaries on the status quo! The crisp and contemporary FIABA Vanity Series from Topex conveys a modern simplicity and refinement paired with comfort and usability. The satin mirror finish radiates a feeling of glamour and gives the FIABA an artistic style all its own. The FIABA shown above offers the luxury of double sinks, the model to the right shows the primal sophistication of White Glass and Dark Crocodile.

Each FIABA vanity features a European manufactured glass finish cabinet with no assembly required. The vanities are made of solid aluminum construction and are completely waterproof. Sizes are 32", 48", 63", and 79" with a 20" depth. The FIABA comes standard in black, burgundy, delmar silver or white glass along with matching solid glass countertops. Silver, black, burgundy, gold, delmar silver or crocodile pattern acrylic vessel bowls are the standard palette. Topex can create custom colors to match your decor for the vanity cabinet, countertop and sinks.

Presenting the contemporary classics of our century.

ABOUT TOPEX

Topex Design is a leading supplier of European manufactured luxury decorative hardware, accessories and boutique bathroom furniture. Headquartered just outside of New York, Topex Design's cabinet knob and pull designs are crafted in Italy and Spain. Since 1974, the boutique bathroom furniture has been manufactured in Milan, Italy and Istanbul, Turkey under the brand name Antonio Valanti for discerning clientele worldwide. The company's unique European bath collections elevate the bath environment to luxury at its very finest. The environment is always at the forefront of Topex Design's selection process.
